PRAIRIE STATES FORESTRY PROJECT

*Cross-Section  
of a  
Shelterbelt*

UNITED STATES DEPARTMENT OF AGRICULTURE—FOREST SERVICE

# Plant at 11 U. S. Department Shelterbelt

**LIBRARY**  
**RECEIVED**

- **SHELTERBELTS** cut down the wind. They protect crops during hot, dry periods and reduce soil-blowning.
- **SHELTERBELTS** furnish fuel and posts needed on the farm.
- **SHELTERBELTS** protect livestock and feedlots. Livestock protected by shelterbelts require less feed.
- **SHELTERBELTS** protect farmsteads, save fuel, control the drifting of snow, and help the farm garden.

For information on how, when, and where to plant your shelterbelt, write to the
